HETVI PEDHADIYA

Machine Learning & Full Stack Developer | Rajkot, Gujarat

+91 9313329830 • pedhadiyahetvi231@gmail.com • linkedin.com/in/hetvi-pedhadiya • github.com/hetvipedhadiya

EDUCATION

Bachelor of Engineering in Computer Engineering | Darshan University, Rajkot — **2022 – 2026** — **CGPA: 9.15 / 10**

Higher Secondary Education (HSC - 12th Grade) | Shree Kanya Vidyalaya, Rajkot — **2021 – 2022** — **Percentage: 78.83%**

TECHNICAL SKILLS

- **Languages & Core:** Python, Java, C#, SQL, JavaScript, HTML5, CSS3, Data Structures & Algorithms
- **ML & Data Science:** Machine Learning, Scikit-learn, NumPy, Pandas, Data Preprocessing, Model Evaluation
- **Frameworks & Tools:** Flutter, ASP.NET Core, Flask, Angular, RESTful APIs, UiPath (RPA)
- **Databases & Platforms:** Database Management Systems (DBMS), MySQL, SQL Server, Git/GitHub, Render

WORK EXPERIENCE

Full Stack Developer Intern | Multiicon — **7 Months**

- Engineered end-to-end full stack modules for a flight booking portal using Angular and .NET Core REST APIs.
- Implemented reactive forms, field validations, modular routing, and cross-component state communication.
- Integrated secure booking lifecycle workflows, payment processing, caching layers, and database transactions.

Automation Developer Intern | Untie-It Technologies — **7 Months**

- Built scalable Robotic Process Automation (RPA) workflows using UiPath for high-volume enterprise data extraction.
- Engineered robust process logic with custom exception handling, reducing manual processing overhead significantly.

Teaching Assistant – DBMS-2 | Darshan University — **Nov 2024 – Mar 2025**

- Mentored 60+ BCA and BSc-IT undergraduates in advanced SQL, relational schema design, indexing, and normalization.
- Supervised weekly hands-on laboratory sessions and guided student project development teams.

FEATURED PROJECTS

Stock Market Analysis & Prediction | Python, Flask, Scikit-learn, ML **[GitHub ↗]** — **Mar 2025 – Apr 2025**

- Trained Random Forest Regressor on historical equity prices and temporal indicators to forecast trading volume trends.
- Built responsive web interface in Flask for real-time predictions and deployed production app on Render.

Medicine Recommended System | Python, Flask, Speech Recognition **[GitHub ↗]** — **Feb 2025 – Mar 2025**

- Engineered healthcare web assistant mapping symptom inputs to disease descriptions, medications, workouts, and diets.
- Integrated speech recognition module for hands-free voice input and deployed live web service on Render.

Group Expense Manager App | Flutter, ASP.NET Core, REST API **[GitHub ↗]** — **Nov 2024 – Feb 2025**

- Developed cross-platform mobile application calculating multi-user group split expenses and automated split settlements.
- Connected Flutter client with ASP.NET Core backend services and interactive pie/bar charts for expense analytics.

CERTIFICATIONS & KEY ACHIEVEMENTS

- **NPTEL:** Python for Data Science (Score: 71%) (Aug 2024) | **HackerRank:** SQL Certificate (Aug 2024)
- **Udemy:** Mobile App Development (Flutter) (Sept 2024) | DBMS (Jan 2025) | Python Programming (Apr 2024)
